

Hunter Monaghan

Full-Stack & Mobile Software Engineer

Full-stack software engineer with 5+ years of experience building and shipping consumer-facing web and mobile applications. Strong background in React, React Native, backend API development, and system modernization. Product-focused, collaborative, and passionate about building high-quality user experiences at scale.

Work History

2023-03 - Current	Full Stack Software Developer <i>Tekletics, Remote</i> - Built and shipped cross-platform mobile MVPs using React Native and Expo, accelerating time-to-market for new products and customer pilots. - Led modernization of 8+ production mobile and web applications, improving runtime performance by ~25-40%, reducing technical debt, and accelerating release velocity across multiple white-labeled products.
2022-04 - 2023-03	Full Stack Developer <i>Swift Transportation, Trucking And Logistics</i> - Designed and maintained scalable .NET APIs supporting enterprise logistics systems. - Worked cross-functionally with frontend and backend engineers to deliver end-to-end features.
2020-03 - 2021-06	Software Developer <i>VisCap Media</i> - Modernized outdated codebases, cutting page load times and reducing technical debt. - Drove cross-functional collaboration with creative and marketing teams to support and improve ad campaign performance.

Education

2019-08 - 2023-05	Bachelor of Arts: Computer Science <i>College of Charleston - Charleston, SC</i>
----------------------	--
